

Water Heater Pans

Available in Aluminum and Plastic

Water-Tite's Aluminum* and Plastic** Water Heater Pans can be installed under gas or electric water heaters to protect from water damage. They are available with a 1" x 1-1/2" PVC drain connection or a 1" CPVC drain connection. With the Department of Energy's greater energy efficiency requirements (via the National Appliance Energy Conservation Act – NAECA), larger diameter water heaters will be utilized. Contractors can rely on Water-Tite's broad offering of sizes to ensure they are ready for any installation.

*Aluminum is recommended for electric and gas.

**Plastic is recommended only for electric.

ALUMINUM

PLASTIC

New plastic material allows for increased flexibility and ease of installation

WATER HEATER PANS WITH PVC & CPVC DRAIN OPTIONS

PLASTIC PRODUCT FEATURES

- High impact plastic
- Recommended for electric water heater protection
- One piece construction and will not rust
- 2-1/2" inches deep
- 1" x 1-1/2" PVC Drain Conx., Drain Kit included
- 1" CPVC Conx., Drain Kit included

ALUMINUM PRODUCT FEATURES

- Durable 25 mil. (20 gauge) aluminum circular pans recommended for gas and electric water heater protection
- One piece construction and will not rust
- 2-1/8" inches deep
- 1" x 1-1/2" PVC Drain Conx., Drain Kit Included
- 1" CPVC Conx., Drain Kit Included
