

# Extendable Backwater Valve

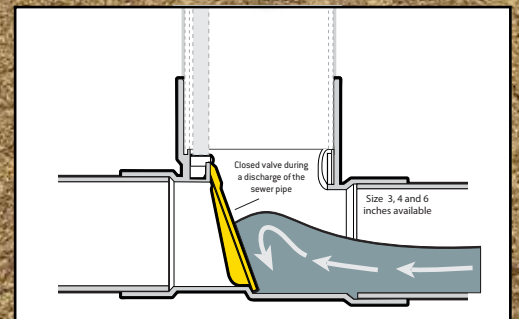

## Straight Fit™

- Retractable gate through ground level access
- Perfect for any installation, “Deep or Shallow”, “Interior or Exterior”
- Smart-Curve™ gate technology reduces risk of damage when snaking
- Normally-open configuration available with Adapt-a-Valve™ model

### Normal Flow

### Backup Flow

**Profile Smart-Curve™ flapper** deflects gate away when feeding or retracting cleaning cables

**Smart-Curve™ guide** protects valve body during snaking

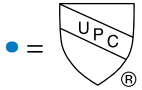

**Extension adapter** for easy flapper access

Hub accepts standard **Schedule 40 DWV pipe**

Available in ABS and PVC

**Double-Hinged flapper**

**3, 4, and 6" DWV models available** (SDR adapters available)
