

## Tec-Vent®

Simplify DWV venting with the  
Air Admittance Valve designed  
specifically for commercial applications

The unique design of the STUDOR® TEC-VENT® provides plumbing ventilation to prevent the loss of water seals in traps without the need for expensive roof penetration and vent piping.

- Classified in accordance with UL2043 for installation in plenums\*
- Suitable for commercial or residential use
- Manufactured from flame-retardant, high tensile strength polycarbonate resin
- For horizontal branch applications up to 160 DFUs; for stack application up to 24 DFUs
- Reduces number of fire-stopping applications by eliminating open pipe venting
- UV Rated for outside installations
- Exclusive vermin protection
- Limited lifetime warranty for replacement of defective valves
