

Electrical Mast RetroFit Roof Flashing

Specifications:

Furnish and install Electrical Mast Roof Flashing. Unit shall be Water-Tite item number checked below as manufactured by IPS Corporation, as per corresponding dimensional characteristics, or equivalent. Flashing material is a UV stabilized flexible PVC with stainless steel multi-piece clamps. Use an exterior-grade silicone caulk to seal the seam of the flashing. Do not use petroleum based mastics, sealing compounds, or paints on the flashing as it will degrade the flashing and void the warranty. Usable up to a 12/12 (45°) roof pitch.
