

Pipe Sleeving

Specification:

Furnish and install Water-Tite pipe sleeving to protect plastic, PEX, CPVC, and and copper piping in concrete. Water-Tite pipe sleeving is most commonly used in concrete slab construction for pipes that are set into the concrete. Product shall be Water-Tite product code checked below as manufactured by IPS Corporation.

Features

Material: Polyethylene or Flexible PVC

Accommodates pipe sizes: 1/2", 3/4", 1" and 2"

Color-coded: Red = Hot and Blue = Cold

Packaging: Self-dispensing box

Directions:

1. Cut desired length of pipe sleeving
2. Insert piping into sleeve prior to pouring concrete slab
3. Red = Hot and Blue = Cold

Precautions:

Limit sun exposure, as prolonged exposure will eventually deteriorate polyethylene. Read all directions and cautions prior to using this product
