

VIP Series™ Pneumatic Test Plugs

The Test-Tite® VIP Series™ Pneumatic Test Plug is a device designed for the purpose of testing or temporary blocking of plumbing DWV systems. The manufacturing process involves cutting-edge presses equipped with digital controllers, facilitating precise vulcanization of the natural rubber body. This advanced technique contributes to the overall quality of the product. At Test-Tite, we remain committed to offering a comprehensive range of test plugs. Our offerings include long, large, and multi-size plugs, along with pumps and extension hoses to cater to diverse testing needs.

Features:

- Compact design allows easy access, even in a cleanout tee
- Schrader valve design to ensure compatibility with most all air pumps for inflation/ deflation.
- Expandable design to provide a tight, secure seal to the DWV pipe systems.
- Used in residential, commercial, and industrial applications.
- No tools required for installation.
- Compatible with functional accessories such as extension and inflation hoses.
- Multiple sealing ribs in the center portion of the plug for positive sealing
- Leading industry 30-month warranty from time of manufacturer against manufacturer's defects.

Nominal Size (inches)	Product Code	Chain	Pipe Use Range		Plug Diameter (inches)	Plug Length (inches)	Overall Plug Length (inches)	Inflation Pressure (psig)	Maximum Back Pressure		Units /Case
			Minimum Pipe Diameter (inches)	Maximum Pipe Diameter					Water Head (feet)	Air (psig)
