FLOODSTOP
IPS CORPORATION

Point-of-Use Leak Detection Devices

Failed appliances and water supply hoses can rapidly introduce gallons of water into living spaces, causing costly damage. Left unchecked, a leak can continue until someone manually shuts the water off.

FloodStop Point-of-Use products automatically detect leaks and immediately shut off the water supply, effectively monitoring every potential leak source in the home. Installed at the appliance, FloodStop detects the slightest water leak, causing the motorized valve to close **Stopping Flood Damage Before It Ever Starts!**

Water Heaters

Washing Machines

Ice Makers

Dish Washers

Toilets

Sinks

Key Product Features

- Reliable Hardware: Lead-free, CNC-machined valves auto-cycle every 30 days to ensure trouble-free operation
- Immediate Detection: Highly sensitive sensor pads detect the slightest moisture, alerting the valves to close immediately
- Simple Setup: Control panel installs quickly and easily, with clear status indicators to ensure correct setup
- Failsafe Power: Includes AA battery back-up option, so protection continues even during power outages
- Clear Alerts: If a leak is detected, alarm sounds to alert the homeowner that FloodStop has addressed the issue
- Scalable Monitoring: Connect to Building Maintenance Systems (BMS) with included pigtail
- Customizable Sensitivity: Adjust sensors at the control unit to determine the right level of sensitivity for each application.
- Added Protection: Sensors can be daisy-chained together and connected to the same control unit.

All kits include:

Motorized Ball Valves

Control Unit and AC Power Supply

Mounting Hardware
FloodStop® kits include screws and drywall anchors, plus a hook and loop, self-adhesive mounting pad for multiple mounting options.

Pigtail

Sensor
The sensor is a simple circuit board that senses the smallest drops of water and alerts the valves to close.

** Batteries used in conjunction with the AC power supply provide backup should AC power fail.

PRODUCT	DESCRIPTION	MODEL	UNITS/ CASE
Point-of-Use Kits			
Water Heater Kits			
20000	Water Heater Kit, 1/2" NPT MIP x FIP Full Port Motorized Ball Valve	FS12NPT	12
20001	Water Heater Kit, 3/4" NPT MIP x FIP Full Port Motorized Ball Valve	FS34NPT	12
20015	Water Heater Kit, 3/4" Press x Press Motorized Ball Valve	FS34PRESS	12
20016	Water Heater Kit, 3/4" Press x MPT Motorized Ball Valve	FS34PRESSMPT	12
20002	Water Heater Kit, 3/4" Compression Full Port Motorized Ball Valve	FS34C	12
20007	Water Heater Kit, 3/4" Push-to-Connect Full Port Motorized Ball Valve	FS34P	12
20003	Water Heater Kit, 1" NPT MIP x FIP FIP Full Port Motorized Ball Valve	FS1NPT	12
20004	Water Heater Kit, 1-1/4" NPT MIP x FIP Full Port Motorized Ball Valve	FS125NPT	12
20005	Water Heater Kit, 1-1/2" NPT MIP x FIP Full Port Motorized Ball Valve	FS150NPT	12
Washing Machine Kits			
20010	Washing Machine Kit, 90º 3/4" Motorized Ball Valves	FS34H90	12
20011	Washing Machine Kit, Straight 3/4" Motorized Ball Valves	FS34H	12
Ice Maker, Dish Washer, Toilet, Sink Kits			
20020	Ice Maker Kit, 1/4" Motorized Compression Valve	FS14C	12
20021	Toilet/Dishwasher Kit, 3/8" Motorized Compression Valve	FS38C	12
20006	Sink Kit, (2) 1/2" NPT MIP x FIP , Full Port Motorized Ball Valves	FS12NPTD	12
20022	Sink Kit, (2) 3/8" Compression Motorized Compression Valves	FS38CD	12
Outlet Boxes			
Washing Machine Outlet Boxes (Standard)			
21000	WMOB w/SWEAT FS Valve	FSOBS	5
21001	WMOB w/CPVC FS Valve	FSOBC	5
21002	WMOB w/F1807 FS Valve	FSOBP	5
21003	WMOB w/F1960 FS Valve	FSOBW	5
21005	WMOB w/F3347 FS Valve	FSOBV	5
Washing Machine Outlet Boxes (Fire Rated)			
21012	FR WMOB w/SWEAT FS Valve	FR12FSOBS	5

FLOODSTOP OUTLET BOXES

Leak Detection Technology Integrated Directly into Washing Machine and Ice Maker Outlet Boxes

The latest product development from the FloodStop® Point-of-Use line combines the intelligence of leak detection at the source with the long-term reliability of Water-Tite® outlet boxes. Discover this streamlined solution for washing machine and ice maker applications.

All of the benefits of FloodStop Point-of-Use Technology, Simplified

Reliable leak detection

- FloodStop® sensors detect moisture and close valves automatically
- Sensitivity can be adjusted at the control unit
- Enhance your level of protection by connecting multiple sensors to the same control unit
- Property Managers can monitor alerts with the FloodStop pigtail that ties into Building Maintenance Systems (BMS)

High-quality valves

- Lead-free, motorized ball valves that self-cycle monthly to remove any calcium and mineral build up
- Forged valve body constructed with two shut-off points—one operated by the control panel and one with the manual valve handles
- Valves are serviceable without the need for cutting into drywall
- Available with or without integrated hammer arresters

BUILT FOR CONTRACTORS

ROUGH-IN KITS

No more keeping track of separate parts used in the finish phase! These kits come without the frame, and valves are pre-installed in the outlet box.

FINISH KITS

Provided as a separate SKU to be purchased at a later date to install during finish phase of the job. No more keeping track of separate parts! Finish Kits include the Control Unit and AC Power Supply, Pigtail, Sensor, and Mounting Hardware.

	PRODUCT	DESCRIPTION	MODEL	UNITS/ CASE
Accessories/Spare Parts				
	20070	Controller-Single Valve Kit	FSACONT1	1
	20071	Controller-Two Valves Kit	FSACONT2	1
